Benefit code legend

Some employer-sponsored benefits appear on payroll with zero taxable value because the payroll statement is used as an employee reference point even when the benefit is administered outside payroll. Coverage terms, annual limits, co-payments, exclusions and pre-authorisation requirements are defined by the relevant insurer or service provider, not by this payslip.

Code family	Meaning	Where to find details
BEN-1x	Occupational health services	Provider portal / employer HR
BEN-4x	Supplementary employee insurance	Policy certificate and Table of Benefits
BEN-6x	Travel and accident coverage	Travel policy schedule
